The race classification law, the *Population Registration Act of 1950* was **SCRAPPED in 1991** by the South African parliament. This give **job - recruitment officers**, government or private organisations, **no legal right** to classify any South African citizen by race! The SA Human Rights Commission's Hearing report of 14 March 2018 recommended to the presidency the removal of the "Coloured" categorization by **31 March 2019**. **Please do not fill in these race blocks OR we all could tick African/ Black and confuse their statistical data.**

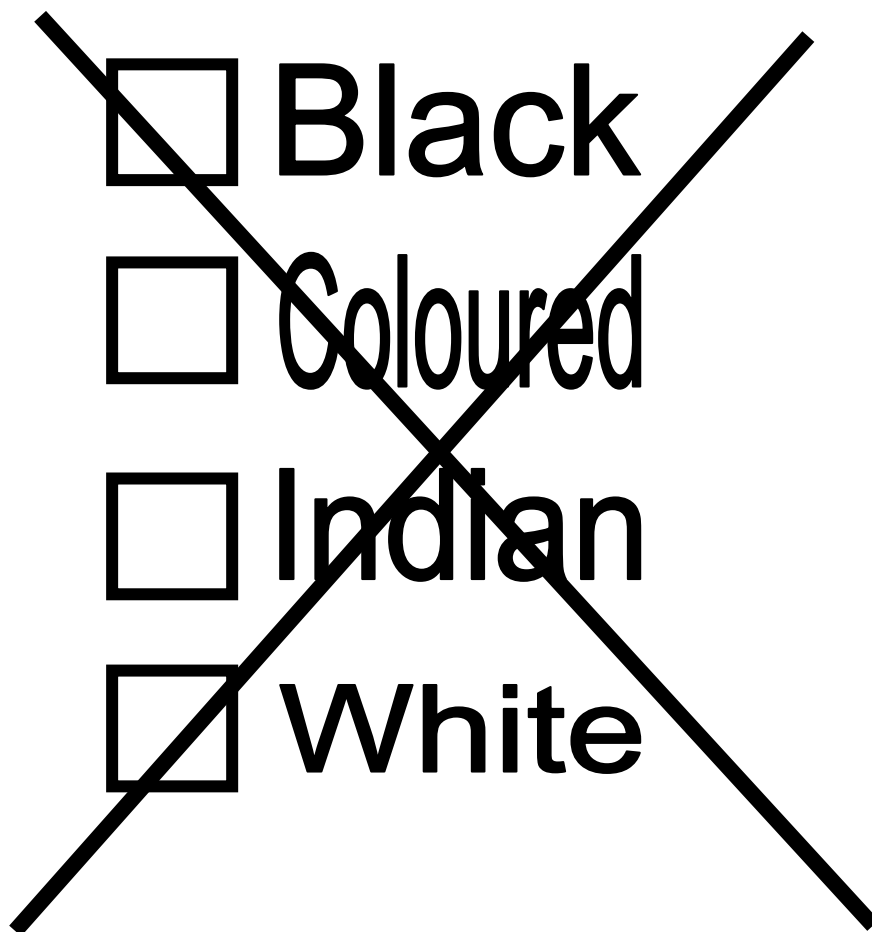

WHO ARE WE?

We are people who oppose the official referencing and classification of the South African population in terms of: "**Black**", "**Coloured**", "**Indian**", and "**White**." These classifications were a cornerstone of the system of apartheid. We are a civil rights activist group, politically non-aligned. Our aim is to fight and terminate any form of race classification and to encourage non-racism amongst all people. **Ultimately the solution to racism is that we should love and tolerate each other.**

PARC COURT CASE

We want to approach the High courts and the Constitutional court of South Africa to have these race blocks removed. Buy a PARC T-shirt today in support of our campaign and court case. Email us for an order: glensnyman1@gmail.com. Details on website. [1/12/2019]

DO NOT FILL IN THE RACE BLOCKS !
